

## Business

### Jackie Gutierrez

Submitted by Julie Brown

Jackie Gutierrez has studied Marketing and Entrepreneurship in high school in our dual enrollment program. She has continued her studies this academic year in Business and Communication courses which are aligned with our Marketing program of study which she plans on completing with a certificate. She is also a PD 100 student who weaves focus and empathy on her own work and through assisting other colleague students. She works twenty to thirty hours a week to help support her studies and is an asset to our institution.

### Jackie's Words of Gratitude

I want to thank the business department for selecting me to receive the 2021-2022 outstanding student of the year award. I'm very proud of myself for excelling in my studies throughout turbulent times. I'm thankful for my friends for supporting me through our study sessions. I'm very appreciative of my family for cheering me on throughout my time at SBCC.
